

Small chambers in the vinyl profile increase insulation.

The covered exterior complements any style of home, including wood, stucco, vinyl and brick.

### Supercept™

The stainless steel, U-shaped design of the optional Supercept™ spacer system delivers thermal performance, structural integrity and durability to help maximize the performance of your window.

## Benefits

- A Quality Construction** The fusion-welded frame and sash profiles are heated and fused to create a continuous, one-piece design that resists water and air infiltration.
- B Fresh Air** Vent latches allow window to be partially open for ventilation. *(Double Hung only)*
- C Ease of Use** Flush-mount tilt latches release the sash to tilt in for trouble-free cleaning. *(Double Hung only)*
- D Sleek and Secure** Color-matched cam lock secures the window and provides a streamlined interior.
- E Reliable Weather Barrier** Patented meeting rail overlaps and interlocks both sash to form a tight seal.
- F Easy Operation** The stainless steel constant force 3/4" coil spring balance system supports sash in any open position and allows for continual smooth operation. *(Double Hung only)*
- G Built-in Efficiency** Standard ProSolar® soft coat Low E glass with an Argon gas fill increases thermal efficiency by keeping the warm air in during the winter and the cool air in during the summer.
- H Ergonomically Designed** The contoured, extruded lift rail is molded into the sash for strength and easy use.
- I Weather Barrier** Stepped sill quickly moves water away from the window and helps combat wind driven rain.
- J Smooth Operation** Unique disc-shaped pivot system provides perfect alignment between the sash and main frame to ensure trouble-free raising and lowering. *(Double Hung only)*

Strong and efficient, Prism® Ultra Gold windows offer the design features you need, with the options to create the look you want. Bold and attractive, as well as resilient, their true strength comes from their streamlined design and features.

Why choose between quality, beauty, energy efficiency and the ease of low maintenance when you can have it all? Ultra Gold Patio Doors provide the streamlined beauty you expect from Prism® by Simonton. Premium vinyl construction with an optional advanced glass package provides impressive thermal performance. And thanks to an expansive sightline, you're sure to love the view.

Available non-metallic foam Super Spacer® with an Argon gas fill provides even greater energy efficiency.

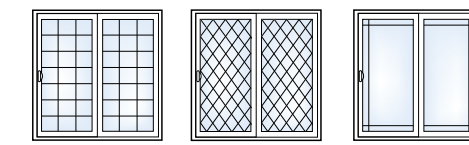

Corrosion-resistant rollers ensure smooth, effortless operation.

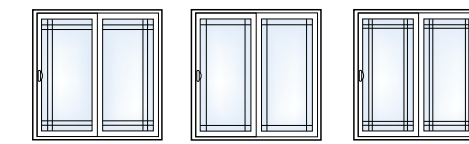

## Features

- A Increased Weather Resistance** Fusion-welded frame and panel provide one-piece strength and protection against air and water infiltration.
- B Virtually Maintenance Free** Premium vinyl construction requires very little maintenance to look beautiful for years.
- C Protection From Water Infiltration** The sloped vinyl sill quickly directs water away from the door.
- D Maximum Strength and Safety** Double-strength glass provides increased strength and security.
- E Expansive View** The narrow frame and larger sightline provide a larger viewing area.
- F Attractive Appearance** Color-matched hardware ensures a contemporary, streamlined appearance.
- G Thermal Efficiency** Fin seal weatherstripping improves thermal efficiency and guards against air infiltration.
- H Energy Savings and Comfort** Energy-efficient glass package with a standard 3/4" I.G. unit, Intercept® spacer system, Low E soft coat glass and an Argon gas fill works together to deliver energy savings and comfort all year long.
- I Security and Convenience** A single point lock handle secures the door at multiple points from one location.
- J Easy Operation** Corrosion-resistant rollers ensure effortless operation and smooth performance over time.
- K Plentiful Fresh Air** Full fiberglass mesh screen is the perfect way to fill your home with fresh air.
