# glass

**Low-E4® Glass**

Stays cleaner than ordinary glass, eliminates up to 99% of water spots and cuts energy bills up to 25%.

**Low-E4® SmartSun™ Glass**

Gives you the benefits of Low-E4® glass, plus it helps shield your home from the sun's heat and filters out 95% of harmful UV rays while letting sunlight stream through.

**Low-E4® Sun Glass**

Is tinted to work like sunglasses, minimizing the effects of intense sunlight while providing all the benefits of Low-E4 glass.

## Your Tax Credit Guarantee<sup>†</sup> – only from Andersen

The EcoExcel™ package brings together our top energy-saving features, including High-Performance™ Low-E4® SmartSun™ glass. Together they make Andersen® 400 Series windows and patio doors so energy efficient, we guarantee they will meet the performance criteria for an Energy Tax Credit up to \$1500.

**For more details, log on to [www.andersenwindows.com/EcoExcel](http://www.andersenwindows.com/EcoExcel)**

**Cascade**

**Fern**

**Obscure**

**Reed**

Our **patterned glass** options are designed to let in light while obscuring vision (Cascade and Reed patterns can be ordered with either a vertical or horizontal orientation).

<sup>†</sup> See the Andersen Manufacturer's Certification Statement at [www.andersenwindows.com](http://www.andersenwindows.com) for a list of products that meet the eligibility requirements for the tax credit under Section 25C of the Internal Revenue code as amended by the American Recovery and Reinvestment Act of 2009. Andersen expressly disclaims any responsibility for determining whether a particular purchase or application qualifies for the tax credit. Further, Andersen does not intend to and is not providing legal or tax advice and recommends that purchasers consult their own tax advisor to determine whether the products they purchase for a particular application qualify for the tax credit.

<sup>†</sup>Printing limitations prevent exact color duplication. Please see your Andersen dealer for actual color and finish samples.

in Frenchwood patio doors (inswing)

## Grille Patterns

Whatever shape or style window or door you choose, Andersen can provide just the right grille pattern. A full selection of standard choices makes specification simple and easy, while specified equal light patterns let you create an original look without the costs normally associated with custom grilles. And for a truly signature look, Andersen will work with you to create custom grille patterns. For increased design flexibility, grille widths from 3/4 inch to 2-1/4 inch are available.

The illustrations below give you examples of standard, specified equal light and custom patterns.

satin nickel  
finish

Hinges are available in ten finishes to match the hardware on the Frenchwood® patio door (inswing). These hinges are fully adjustable for smooth, frictionless movement.

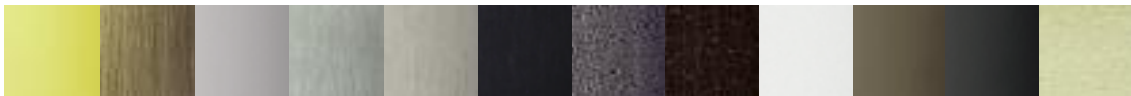

You can mix-and-match hardware styles and finishes on Andersen® patio doors, ensuring just the right look for your home on both the interior and exterior.

## Hardware Finishes

Andersen hardware finishes help you match your décor exactly.

Printing limitations prevent exact color duplication. See your Andersen dealer for actual finish samples.

Exterior keyed locks are a convenient accessory for all Andersen patio doors. You can also add an optional handle extension kit that allows clearance for interior blinds and shades.

Bronze finishes develop a natural patina that brings individual character to each piece of hardware as it ages.

For an extra measure of security, auxiliary foot locks are available for all gliding doors. They are available in finishes that coordinate with the hardware.

## Frank Lloyd Wright® Series

Adapted from windows Frank Lloyd Wright designed, this series remains true to the principles that governed his original work; simplicity, unity and nature. Each panel is handcrafted by skilled artisans using centuries-old techniques and, as often as possible, the glass is selected from the same sources specified by Wright himself.

## Classic Series™

**Victoria**

The four styles included in our Classic Series™ panels represent major architectural design themes from the late 1800's through the 1930's. Their symmetric patterns are available in distinctive color schemes as well as colorless glass, and their coming may be finished with a gold tone, silver tone or antique patina.

# insect screens

## Material

For windows, choose from TruScene® or conventional aluminum insect screens. TruScene insect screens are made with a micro-fine stainless steel mesh that's one-third the diameter of our aluminum screen wire, making it much less visible. Patio door insect screens use a glass fiber mesh.

TruScene Insect Screen

Conventional Insect Screen

Images shown at 6x magnification.

## Frames

For casement and awning windows, TruScene insect screen frames are available in stone, white or with natural pine that can be stained to match the window. Insect screen frames for all other windows match the unit's exterior color.

Stone

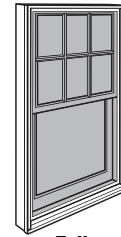

White

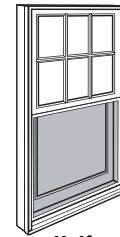

Pine

## Window Configurations

Full insect screens are available for all operating Andersen windows. Our double-hung windows also give you the option of half-screens, which cover only the lower sash.

Full

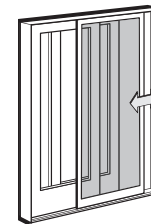

Half

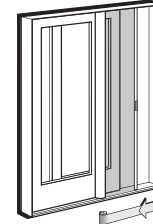

## Patio Door Configurations

Insect screens for patio doors can be ordered in the three styles shown below. Ask your Andersen dealer for options available with the door of your choice, or visit [www.andersenwindows.com](http://www.andersenwindows.com).

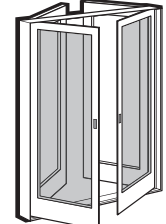

Retractable screens for FWO are available in pine, oak and maple as well as gold dust to white. All other patio door screens are color matched to unit exterior.

Hinged

## **A clearly better view.**

With over 50% more clarity than our aluminum insect screens, TruScene® insect screens give you beautifully unobstructed views. They let more sunlight and fresh air into your home, yet keep even the smallest insects out. TruScene insect screens exclusively from Andersen - they're like nothing you've ever seen.
